

Let Us Shine - The Now Nows

We've been good, we've been bad,
We've been alright, we have played.
We have burned that midnight oil,
We have shined - fed those flames.
Years have come and gone
We've shared a life; shed some tears.

I been good to you, you been good to me.
Oh, baby please.
I been good to you, you been good to me,
Oh what will you do? Will you forgive me?
Make it right.
Let us shine ...

Where there's shadow there is light.
Or so they say ...
I've made promises, I've told lies,
They all taste the same.
A guilty man is like a river dammed,
Nowhere to go.
Whatever you decide, let me know,
But please, don't let me go!

I been good to you, you been good to me.
Oh, baby please.
I been good to you, you been good to me,
Oh what will you do? Will you forgive me?
Make it right. Let us shine.

I've gone and done that thing I said I'd never do.
Lost my way, betrayed you, can a sorry stop it hurting you?
Will you forgive me?

I been good to you, you been good to me.
Oh, baby please.
I been good to you, you been good to me,
Oh what will you do? Will you forgive me?
